Pahrump Public Hearings

552432

MS. GRUBB: My name is Sherrie Grubb. And I

23 disagree with what's going on. That's a personal

24 feeling. When you're involving as many people as going

25 to be involved in this, I think you need to think,

0138

1 rethink, and rethink again.

2 I'm afraid for a lot of people. This is our

3 backyard. And we have, people say it's just desert.

4 No. Wake up, people. It's not. It's our home. We

5 need to stand together and protect what is ours. The

6 government owns most of the land in Nevada, so it makes

7 it very accessible to them. Don't let them take

8 advantage of us.

9 If this issue were a brothel issue, this room

10 would be full. That kind of scares me. We need to

11 stand together and work these problems out. There is

12 many problems. We're not here to be God. There's only

13 one God. We're the people. We need to take care of

14 all the people.

15 Thank you.
